

### Don't Step to the Peaceful (lyrics)

**Hook:** Don't Step to the Peaceful, Everyday Teachin' equal (4 times)

Raise em up and shake em out (arms, legs...breath in 3 counts, hold then exhale and drop arm/feet)

Feel the love and never doubt

Somebody turn on the lights

Intolerant extremes wake it up or you're sick sit down

Remember that a mess up is a sign to calm down

Ease it up or make mistakes we know right now

Cleanin' up behind the first-order mess power is strong with us true all the way through Planet Owl

Blunt Brotha in effect respect or we dissect

That there dealt with it aired it out All a tech

Watch what you reflect because a bite ain't always checked

Matter of fact in effect keep a rhyme off tha chest

Love yourself cuz you ain't the only U

A world inside the Rapture please minimize the brews

No confuse we helpin' to bring it to 16....shoe (back it up)

Any bothers let it go hot stuff feelin' throughs

**Hook:** Don't Step to the Peaceful, Everyday Teachin' equal (4 times)

Respect the hope like Harmonic Revelation

Relevant to cash rules blessin' every nation

Bounce Rock Roller skate

2 for cash ran its course

Q'n elevations

They expect Commerce just to be there without the peace

Gotta protect them from themselves Elders please teach

Competition babies watchin' minds while they leach

Every soul is from the womb Women's rights not the beast

Chill Peace Team Camp Infinite Labs Universe

Loyalty is royalty watch the air break the curse

Love relativity really life no rehearse

Mentally we peace hear the purpose first

What are we doin' to be aware conscious of the reign

When the world is in your head it's a Harbinger thang

Don't be bothered by the lie it's a tribulations pain

God Krishna Yahweh Allah many cultures just the same

**Hook:** Don't Step to the Peaceful, Everyday Teachin' equal (4 times)
