So we keep the torch lit find light n' know the peace day at a time gratefully lift their lids so we can teach

Realize that liberality is not for demonizing

Actually General Warfare future realizing (wrote general welfare, but ½ budget goes to war so :o)

Half the jobs will automate help us with economizing

Claiming faith for cash how about universalizing

Love not denial we said to wake up dis and take a seat

Don't step to Owl in peace or here's your real mind you beast

Learn to love and speak from peace tending to the shallow sneaks, they should know by now so many years of tech and all a' leaps

To find Light Within confusion

Strengthen our resolve

To seek truth not delusion

Strengthen our resolve

Always in the spirit whether flesh or Heaven through

Never drama just the tune lan on his Owl in U

Team flyin through the air all connected always cool

Coronation, should meet your Owl in when you scare

To many years of love to let electoral tare (wheat from tare parable)

God's time, intolerance will know to repent  
Happened over all the years so who are they to be exempt  
Scarcity used our story of Heaven Sent  
Their little world of Destruction doesn't destroy?  
they owe us rent

Reconciliation supposed to save us if we work it  
It works it works and nobody's perfect  
Cast of characters men of perdition's and their curses  
Pray for blessings before it worsens

Hook (twice):

Strengthen our resolve  
To find Light Within confusion  
Strengthen our resolve  
To seek truth not delusion  
Strengthen our resolve  
It's always build or destroy that we choosin  
Strengthen our resolve  
Respect that we know thangs No Illusion

Outro: the power is in the peace and unity and love one another...not strifefull combative denial that raises its voice (volume) when it makes an argument to distract from the truth. Let's be encouraged in our peace. 1
