Verse:

**123 March 4 the greater good it's been this looming sleeper leaders meet the Owl in Global Hood**

**From every nation patiently erasing haters wasting me all of us to us for all time love and unity**

(The Sleep Dis Global Puppets think the current conversation is Geo-Political play date or something...when it's actually the world being brought into judgement...if anyone believes that type of thing that is....just expressing stuff...)

**As we awake to love...**

**God's time.... :o)**

**Love abides in us.**

**Hearts and Minds knit together in love bounce back Spirit Luminosity within the truth not the shove**

**Strife denial drama trauma sneaks above the law**

**Trickle down Iron Curtain sleeper dis puppets flaw**

**Obscuring facts with fear divisive people saw**

**A glimpse of the eclipse future change for All Paws**

**Teaching peace with love in the center of our thought**

**Land of the Free most incarcerated that's a lot**

**Nearly 35% from basic needs are on lock**

**Can't be looking through a dumpster and still have a thought**

Verse:

**Right now Team One Refuge Music Family**

**Word bond tradition versus Heckle evils bother G's**

**Restate the truth to the lie new reality**

**Democratic Spirit love legislating heartfully**

**Channeling the world Collective Individual Minds**

**Surviving Earth together praying dealthy healthy happy times**

**Represent Community protect the love remind**

**Wake it up today or leaders should be kind**

**Oneness spiritual war don't engage gasbags division**

**Zap the death oblivion (until) right-to-die liftin' lids n'** (basically the "right to die" would exist if the governments knew what the reality is, and they truuuuly have no idea...in time "Right to Die" will probably be everyday stuff, so to our "Huff n Fuss Justice Appointment" ...-no offense of course...I'd like Him to take a seat and "Learn Sompn", but he wouldn't understand because He is a sleeper, so... :o) go figure...all due respect, He might be a good person, yet he is just aligned with Men of Perdition characters in his life experience...love is truth and we're just a glimpse...peace)

**Word is bond or lies really love is one religion**

**Future with a sense of wonder love is purposefully living**

(side note: we can look towards to future with a sense of wonder, as opposed to confusion or drama as the drama/trauma "Huff n Fuss" puppets would have it :o)

**Lighten up the frowns of denial Strife Tweeter Child how can we forgive if we're still going through the trials** (I/we say a prayer of forgiveness every day, yet we are still going through the battles, and repentance has to be a part of Sleeper Dis...then there is a new process of healing....we are surviving.....Sleep Dis doesn't repent, so I/we say the "wash us clean" forgiveness prayers to let go of the "Huff n Fuss" drama...and as always, trying to detach from the Sleep Dis n Drain energy...same Ol' Run game stuff, just different People.....peace)

**They can repent or wake it up let the people smile** (wake it up, meaning the "awakening" that is gradually unfolding on the Earth stage...for anyone who believes...the experience, is that, with God, it's the Spirit of gentleness and kindness.... or the rod of discipline...how it is for anyone alive...yup, eventually this will include Sleeper Dis Puppets)

**Flesh finding Spirit Footprints every mile**

Outro: Peace. We wanna give thanks to all the Rhyme Fathers and Mothers. As we battle spiritual War together. Word is bond and it's Tradition. 100% or the lie should step to the side. (some say, well, "you know, not everybody is like you all" ...well, yes, not everyone is genuine like us. This is true....:o) )

And with God...We know...all we have is today. Give thanks. Respect. And peace to the Universal Council for Higher Consciousness. Evolutionary Council for Living in Peace.
