Spirit from the Most High within pray don't interrupt,

the journaling along together collectively strong as we grow we know L.O.V.E stuff

Patience... here with us right now, kick snare in the moment,

it's ok but worry never adds to the focus, it just distracts, yes, we know this

Gotta address a few things have our pivot Peace K

Trust that the Spirit of love hugs our people everyday (Tao)

Owlin Universal gratitude aware every way

Healing frictions of Earth cultures different, yet the same pray

Separate is illusion witness love teaches hate

Like delusion forcing lies center (of) tension sleep fakes

Same drama different grid sleeper loop match makes

All respect we know it's just a daily smile for love sake
