

Real Good (Lyrics)--- (parentheses is added notes on the subject)

Hook:

Real Good, grateful for the love is the truth (G.O.D. ..echo)... rebuke the lie at the root. Peaceful is natural community is proof (villages). Rebuke the lie at the root. (2 times)

Verse:

**Word is bond redundancies is better than the "dis"**

**Repetition of the obvious so the truth we don't miss**

"Useful fools" full of lies, ain't "tell it like it is" (using "Useful fools" or calling Free press journalism "Fake news", is a historical strategy that the USSR propagandists---or today's Press Secretary?—Ha haaa...---anyway....The Propagandists used or uses "Useful fools, and fake news" to create division and dis-information, which proved to destroy public interest unity)

**Depriving Citizens of Rights love is truth we made a list**

**Dissent with no purpose "False Claims" took his rights**

(Opponents like to say that "dissent" is part of the deliberative democracy, but dissent with no purpose or reason, is just mindless dissent. A void of junk. Also when a Law enforcement person believes False claims, and doesn't properly investigate a case, it eventually deprives Citizen's rights. Terrible crime)

**Next, documented peace check the lie and manifest.**

**Its principal not bitterness the people will be blessed.**

(...it's the principle of the story that needs to be reconciled, not the bitterness or emotions of the people affected by the case. If officials who follow through on False claims are no, reconciled then it will continue to hurt other Citizens)

**Beyond the drama, "Fetters Widow" tandem false stories test** (2 stories in tandem, which includes checking "Birtherism"...happening as of today)

**"Pablum" claims the fake news, early Lenin freaks**

**missed the word bond sprinkles lies on truth, how they leak** (the anti-public interest news sprinkles truth with lies, that are later attached to truth in Citizen's minds, so People believe the lies...sad but true, and difficult to convince a person otherwise, yet thanks to Technology, the Sleeper Leader minds are thoroughly read every moment, quite a moment in history...hoorayyyy)

**Head to toe every know it's amazing how it sleeps**

**Time after time leader sleepers flesh sneaks...**

**Peace around the world truth to power therapeutic...**

**Gratitude to deal with grief**

**We motivatin' through it...**

**Pause (Pawz :0) for the cause little victories is doing**

**What we do is process, through the world yeah we knew it**

**Peace. Gratitude is the key to staying in peace through life's changes. And we know "time marches on"...peace to "Thunder and Lightning"...One love. We are reminded that on Earth there is a blessing and a curse...(Deuteronomy 30:19 if anyone digs)...**

**...and sometimes the law enforces the curse, (instead of protecting equal rights).....**

(Human's tend to corrupt power when given power, that's why leadership is a great responsibility)
