

## Intervention (lyrics)

Hook:

Intervention from Highest bigger than the beast

Teachin' peace to the glitch

Earth Heaven each week

Intervention (echo), from the Highest...is bigger than the beast...teachin' peace to the glitch, Earth  
Heaven each week

Verse:

Just want to do the art and serve Community yet the evil we see

So it's truth to power slayin' demons is democracy

Free Press to beat the fascist dogs with humility

Nations facing death impulsive change (in president) was absurdity

Road to power birtherism now effects communities

Like a group lesson all effected by deficiency

Lack of Integrity lies were told repeatedly

Hopefully the Beast receives it's punishment by G.O.D.

Forcing us to work together God (the) Father purpose lean

Spirit Mother Earth how it made the global virus seen

Unfortunately learning how a lie destroys the unity

Check it at the root because distract and divide is mean

Leaders of perdition showing no responsibility

Guilty of the covid cover up demagoguery  
What we see within effects was in the cause initially  
Legacy of death is now their names (they) brought hostility

Hook:

Intervention from Highest bigger than the beast  
Teachin' peace to the glitch  
Earth Heaven each week  
Intervention (echo), from the Highest...is bigger than the beast...teachin' peace to the glitch, Earth  
Heaven each week

Verse:

We said it a thousand times I ain't playin'  
Collectively P.I.M.P. with no delayin'  
G family fellowship word is bond we sayin'  
Every day at a time we peace one Spirit stayin'

What do they want? To project and divide  
Call covid a hoax like impeachment Free Press really tried  
To Define how the devil steals destroys telling lies  
People are just trying to live New Millennium tries to fly

Families of Earth have more money than leader scratch  
Tell it where to go let the people keep teachin' the facts  
Harvest Time Choose Love ditch the the beast as it reacts  
That was festering underneath when Civil-Rights tried to hatch

Repeat the truth forward not left or right that's the past

Glitch repeat itself again destroyed itself fast

Drama trauma leaders spectacles that won't last

The children seein' through it New Beginning brass tax

Hook:

Teachin' peace to the glitch

Outro:

Peace... love is eternal mystery... Truth and facts are the glitches greatest adversary... we pray for leaders who are a voice of love, respect and substance... to take the stage connecting Earth Villages towards sustainability... Men (and Women 🌻) of respect... we're taking confessions from the "repugs"... and then the Harvest Fissure... God is still on the thrown... lie and deny doesn't hold true because it lacks heart... peace... ***(an extra note regarding the global/National opponents who are still playing around with truth... everyday, their glitch behinds are messing around like they did with "birtherism"... day in and day out, their pest behinds are lying.... I just hate them, because they are always pests, always!!!..... annnnyway... praying for peace... Dr. King said that hate is to great a burden to bear, so I can dig it... I have forgiveness in prayer, but since they won't stop lying, and we're still going through it, they gotta repent, so I pray God deals with them... were the soldiers who were fighting Hitler living in forgiveness for him all the time? Nope... anyway... But gotta get back to the peace..... do they think God was playing with us all these years? Those who know owlin peace unity know what's up... but God has a long term plan... we are people of peace).... peace on Earth.... 1***
