

Together Prayer (lyrics)

Hook:

Together prayer Hip Hop Civil Rights in the Air, sowing seeds of peace One Love
keep it healing there...Together Prayer Hip Hop (echo)

Verse:

G.O.D. please help us change a worry with the love
some togetherness we can do it a little is enough
Keep focusing the healing let the agitation flub
..cuz prophecy is seeing truth through time nuff love

peace was clear years ago now the new begins
Let scarcity confessions slowly surface as we win
For the loving families across the Earth every kin
Prophecy ability we see the truth Within

Segregation from the past tries to claim a new war
Lie same drama different names as before
Cult-like Force energy really hates the poor
Let truth defend the peace people hope for living more

Possibly the hate groups are looking to belong to something sad how it
chooses lies division when it's wrong

Side of History unfolding now revealing where it's gone

Many Angels we unite to heal the nations through a song

Verse:

Be/ware of agitation demon sleeper parrot yawns

Air is not a hierarchy stupid leader pawns

Had to say it, respect death G.O.D. is on

Keepin on how we do it one spirit in the songs

"Glitch-latelies" up in our grill chill join the peace

Feels better don't it yeah keep it cool at the least

That's us Special Needs are here to I/We teach

Depth of Understanding, what's the word heal the Beast

Snakes in our garden people know we bein' nice
Warning, don't try to go against Civil Rights
History tradition love peace switch the lights
On, basic peace stuff need the love human twice

I ain't playin' cuz God wasn't sure made us right
Still going through it though so lighten up rebuke the heist
Cuz people need help basic needs wasn't right
Have both boom and bust but give families their rights

Outro:

Peace... we know Team... scarcity missed us, but it was supposed to, so keep your
head up, we're here 🌟❤️ always will be... peace to "Bumblebee Marches"...
peace to "men perdition" across the Earth, be a good splinter...thanks G.O.D.
respect... and peace to "home chimes", "we know things"... from "all of us to
us"... "what it is what it was", it's a story of unity and peace...join us...and
scarcity?... you can still have your "bull boom-and-busts" but let people have
Healthcare and basic economic safety nets... and don't say Jesus was selfish, it's
about love...one peace...
