

*The People are the Nation (Lyrics)*

Hook:

People are the Nation

Spiritual globally reconciliation peace meditation

People are the nation (two times)...after 2nd time, "serve the people"

Verse:

We'd like to see the world pull through to the truth

Learn to peace, history of patterns many clues

Ilyan terror, is not love, "courage proof"

Choose Doctor King, world of smiles Spirit loose

Conscious beyond the label "Social", yeah we said it love

Community is not an "ism", peace is where we're headed love

Paradigm transformation from within is truth is love

Witnessing each-other strong together Comfort living love

Battle is not the flesh, but the spirit double U we love

"Oh how cool" like a Trinity Peace Spirit does

Toast ourself with better choices any effort always was

No-where is now here, you're okay easy does

Men Perditiion likes to be "center of attention"

God knows every thought "7 intervention"

Tricks tries to say it's peace (yet) agitates the mention

But the lie will get caught up

G.O. intercession

Outro:

Peace...to "At ease", what it is...we thank you so much... it's Team Effort, and we'd do the same for you...let's respect our Seniors and stop the run game drama dissent for dissent sake...ok...thank you..."Good, ghhood" 😊🎵 and peace to Morpheus, good work Brotha Man, thank you...we're "off the couch" with motivation, "jump up and be somebody"...we can all agree, that the decentralization of power is the future... We Serve the People. It's a Timeless spiritual battle between natural human rights versus totalitarian segregationist philosophies... we should remember it's a philosophical struggle and battle...where are we drawing our thoughts from? Build or destroy. A loving and positive constructive place? Or a negative and hateful one? Let's choose peace. 1love
