Outro:

Peace love and gratitude to: "Gotta put these thoughts into a song". Catch a glimpse, we can revisit it later, or figure it out when we get home... (basically "at ease", we share the hope with each other)

It's all good. Let's wake up to love, the People are the Nation and "The Makers", or there is no Nation. So for the "Treasonous Con'll Gerrymander Coathanger Segregationist Patriarchy Snot Enabler Takers"...that are always off subject, their point is always beside the point (could never get a sincere dialogue answer, always beside the point)... so it's clear that its Dr. Martin Luther King Civil Rights versus "Ilyin Glitch Scratch Curse" (we are reminded that good leadership is a blessing, and that bad leadership is a curse...it's the basics, nothing is new Under the Sun)...And that is history now going forward, we see the root to the fruit, from birtherism to covid...

No...Democracy is a Union team sport, so if they can't wear the Jersey, they can get off the field... and we know Chump's "Ilyin gone wild" is a cult, it's "cult-like" because it created an alternate reality that got exposed by pandemic science and citizen observation...yes...there really are genuine people who helped with the recent election, rejected fraudulent voter suppression cases (the U.S. has very clear documented history of voter suppression)... and tended to all the hospitals, we love you First Responders...and People, we are love, stronger than "men

perdition"... Decades of observation shows that their mind doesn't lie, it's only their mouth that does...and Mother Nature Collective peace is true...yet, let's try to love through it and heal, people are just trying to live...peace
