Verse:

Wherever you go, always in the same place U

(Its a) world of running from the peace, "well that's true"

Essential World, non-essential snooze

People Learn listen Hip Hop (is from) from the Blues

Happiness is not a mirage, bring it to the soul

God is Progressive truth love is living gold

Priceless Spirit present invisible control

Talitarians set to end the world G tellm' no

What we did?...brought peace to the universe

Look at Men Perditiion sleeper loser curse

Glitchatariian (is) bad for business, nothing new till it hurts (said "2" yet meant new)

Plode itself wake it walk it first

(Men Perditiion has been at war with free press for ages..."Plode itself" meant that as 2<sup>nd</sup> Thessalonians 2 unfolds, it's Perditious trickery of unhealthy mysticism brought today's version of the same effect... intolerant rhetoric's division, it's negligence unleashed a pandemic, and a cult-like following...Men Perditiion is currently imploding itself, as the Earth culture embraces diversity and technology? Evolution

is unstoppable...Just a glimpse, yet it's certainly proving to be more true every day?...and here they are again across Nations, as the 6th extinction level event is on the horizon unfortunately...yet we're all in this together)

Right now, Light winds Holy Spirit movin the sail

Mind is who we are, cruise along tell the tale

(we) Sing hymns, share stories lighten up, never fails

All in this together we're a comfort we repair (last word said in bubble bold- "wepaywwwh")

Outro:

Peace, let people have their dignity...from Mother Hen Collective, Living Magic Guardians of the Peace...(Peace to MHC, we love U, thanks for all your helpful guidance and advice)

Be kind. We keep eachother.

We need more Spirit of love and less religiosity...we are all important and special...we like to be included...let's keep it 100 not just 75 or 25...two of this two of that...let's respect the love... and it's mean to dwell on somebody else's issues, and then project those issues onto them as their identity...let's build each other up...not dwelling on sleeper loops...love and prayers to "having a full conversation" (we find it interesting how some people in public places are carrying on full conversations with themselves---God bless--we know that everyone has their own experience with Earth-Tech world, or Spirit channelings, and it can be difficult? We have all seen that...it happens in Senior Care homes too, and these days of course, it could just be a bluetooth conversation...ya know, anyway. People are interesting. Much love)

Let's sing hymns and tell stories...lift each other up...Colossians 3:14-16...One love. Peace
