Verse:

If you really know you know the real one love reality  
That's what we always say way above duality  
Very simple love Public Health, commonality  
Peace, not an evil sociopath personality

We're experts too in doing what we do  
Nothing new we said it all in the Rhymes next tune  
Share the peace, that's cool Life's a puzzle, yep true,  
God's paws and it works  
Strong together keep it you

Naturally found our little "tech start" peace flow  
History of words action truth already knows  
Enough excuses addicts every seed really sows  
Thousands of stories teach have hope case closed

Question is a coup okay to do young tolerance n' wokes watching if okay then  
how to follow through

Hip-hop One Love recipe to balance you

Extremes cause extremes till we need treat all a new

Take courage with the proof truth in the booth clever

Word bond life addin' on trying to heal

Real stuff no joke Let's Chill keep build

Story is deliberating all the way till the end

Outro:

Peace. Let's agree to be honest about what's good, and represent the good word  
of peace and honest Democratic Spirit deliberation...and not Men Perdition  
autocratic crisis normalizing...Gratitude is The Greener Side...we give thanks for  
being real about the "Running commentaries", we give thanks for "Pucker up"  
let's find peace and work together to bring peace to drama gossip loops with a  
Mustard Seed Faith...praying for any "Crotch attachments" or a "Glutius-  
identities" that we all need to understand constructive motivations going  
forward... please don't mess with somebody's prayer/meditation or  
motivation...we give thanks for all the people who still believe that "Oath of  
Office" and a life of service...Some of us are more "I/We" colors than rainbows

and combinations, lets respect... peace to "Creciendo Alas" growing our (Angel) wings...peace to "Blessed with Melanin" we're all one people...peace
