

Peace Team. A few charts from the 6-18-25 trading session if U dig. The strategy is “TBL” (Time Based Liquidity). If price reaches a key level, then, when there is an “Entry confirmation” may try a trade. The charts explain. Much love and encouragements.

The goal is to succeed at Evaluation accounts, get funded, then have consistent success, and share the process with others. All in good time. Be safe. Take care. Peace
