

Peace – Here is a Charts Journaling from the NY session open with MNQ for 5-28-26. Learning along. My plan next week (During the 9:30am to 11am window) is to take all “Universal MFB Flow/Sweep/FVG-123 Setup” trades, and learn from the indicator with the Trade Assistant (and improve it if necessary). The trade setup at the end of the PDF actually worked nicely, yet I did not take the trade. Learning to trust the signals. Cool. Peace.
