

Peace – Here is a “**Yo, What’s really goin’ on – what symbol and signals are we trading**” PDF if U dig – 7-17-26

Symbol is **MNQ**

Signals are **CISD (and 9 EMA retrace or FVG-123) on the 5 min chart**

Here are charts from the 7-17-26 session. I am working with the new “MFB – Levels Coherence Gold OR” and “Universal MFB...”.

I am practicing trading, though will also monitor “MFB – Levels Coherence Gold OR” to make sure the indicator is working properly.

Maybe “MFB – Levels Coherence Gold OR works for MNQ as well?

Cool. Onwards and upwards.

Peace – What is the Trading Session Process?

For MNQ –

I searched for the current symbol on **CMEgroup.com**, and its MNQU6 today.

The Key level (**Opportunity**) and then the Response to the level (**Intention**) is the core idea – I really like the CISD strategy.
