Outro: Knowledge, and wisdom is knowledge in action. Remember that your expression and way of dealing with time is not for critics. So don't pay attention to that lack of respect for your meaning. God is within everyone and everything. And no worries guys, why? ...because billions and billions of dollars are involved in our shared creative and business community of what is the final message, ONELOVE. Peace.

(we say this, because even the hype and negativity about the UNITY topic that is thought to be the opposite representation is eventually used as a basis of transformation...it all goes to the good...so lets relax and try to bring light our day...it brings light to those around us, and creates long term ripple effects in the world....much love you guys...take care...from all of us to us... ☺)
