Love not denial and man they're lean and mean on top of that They make mistakes our motives to restore so back to habitats Ecology don't bother me a father please So drop the vindictives it's viscious respect his wishes laugh attacks

More like snicker zaps as we train to a reign about empowerment Fans of eachother don't sour it Watch the spirit move seasons change just relax to this track chill As God devours it

Stop it, let the kids live and learn touch their hearts that's the way we teach self motivation arts Early good, that's for most of us find a place of peace Breakin' mental cages (he works with every seed) that's how it starts

A bit of trust nod your soul to the beat we're just chillin right now beyond the doubter's noise what a treat Never questioin God is power love self control focus on a goal That's where the mind and body meet

Verse 2:

Mutual respect what's the cause we disinfect better reasons living life giving respect a real effect beyond afflictions billionaire depictions industry descriptions over our heads or out of touch back to Earth like we said

Why not? Because we value mental freedom over all the opposites being able to breathe free We don't like the death wishes we hear in families connections oh it's just lookin' out right? So let's agree

To disagree but family is family and there should be a code shouldn't there? We help to carry the load Turtles rabbits anecdotes to make some leaps to pave the road Heaven sowed so gotta recognize the spirit flowz

Turns out we did good general comfort owlin Leanin' on the Method Air a freedom fighter why they poutin' Don't dismiss us you need us here Rap World Bring it in and chill....so why they shoutin'

Hook:

Bounce, chill, Bounce, clear your mind, Bounce, a little head nod (repeat 4 times)

Outro:

Know the difference Rap world, what the spirit did and does is still chafe from wheat. And the indifference helps to caughterize the pipe dreams, but don't let it effect the love, it's the love that knits all of us together. And don't forget, your special. Clear the jaw. And lean and mean (aka...rape and pillage..."bottom liners"...) doesn't always win folks...onelove peace....

(Cool guys...much love...slow n easy....one day at a time)
