

**Faith Hinge (lyrics)**

Verse 1

Happiness hinges on our faith to replace the death rest

And know we don't play It's real though haters test

If we're not pushin' back they creep like a bad trip

channeling one people chill chill like the rest

(we don't play the) the kids hit year 40 where they at trippin'

On oppressive though expressive it disturbs the lesson

Back it up is what we tell em' like we said for many years

But different phase so here we go to build another session

Didn't ask what they thought of how we sound

Won't receive that believe dat in fact take this n take that

Back to wherevah ya at that's how it is discernment n please don't react

Always a disturbance what's today's occurrence

Let us live breathe before the hesitation worsens

One people peace through music that's how we remain God we pray

We live to stay for love and keep us free from pain

Hook:

Faithfull it's on, we all have the strength to live (2 times)

## Verse #2

Even if we're just a comfort in the storms are built to pass  
 Holla like ya know me over time it's simple learn to laugh  
 Everyone lets feed the people that's the reset for the raps  
 It takes a village Uncles Aunts Grands Cousins Moms Dads

Root story Gift from God HipHop supernova  
 Teach the people ain't no sequel make us equal safe cause  
 Unity ! I am peace! Back it up so we can teach  
 The Generation WE let the children be

20 years of industry he knows all the relationships  
 Or something like that out of the loop is better for me kick flips  
 Close knit beats thick never trip or drama snits'll find a snare  
 To set a trap mind is your rudder think ships

Body is the temple careful with the mind  
 Any seed counts God can work with it remind  
 The self to plant some hope reality is death  
 We need the light so we can cope with the duality of life so know we shined

**Hook: Faithful it's on, we all have the strength to live (2 times)**

Cool guys...much love and keep yer chin up.....hug yourself...keep the faith..peace!
