Just as much as everybody else is living so are we Set us free to any level trippers trippin' hatefully just leanin' G.O.D. that's better do it faithfully, exponentially Don't mess with things it ain't a novelty

Ah ah uh oh we know be slow on the low we cool Really chillin' Bro Hee we he we go now now so ya know easy go steady flow ta heal the Challenges of now

Yes, yes, just a reminder chill gotta chill ta feel the real truth just allow the time ta chill And don't forget the love of anything whats that mean positive mind set just present The hope what rhymes with times let

One at a moment everyday better everyway that's how we gotta be but what we gotta say ta pray our way out of the same..

and spiral up instead one or the other choose it and don't forget it ain't a game

Verse 2

So much/hide n seek is what we see o.k. he moved so let him be except too late

Their at his mind just hope it's kind it better be

With confidence not arrogance o.k. they turned their backs who's they they know who's they is never bother with it we're just chillin' Bro

Another tune good job keep it that way never question whisperers that tell you something else they trippin until their taught

Antiviolence is what will last it's how it's gotta rock

Sounds of silence with a crunch don't think it's hate it's not

That's is he'll survive n save yes that's all it is on the level but with joy we manifest it here you guys

Past the fuss fuss right under their noses join us peacefully it's cool so everybody...we can thrive

Considering the magnitude always poetic we get it hustle material for everyone

No doubt we said it that's my brotha never forget it sense of humor necessary to set it off daily it's love and don't forget it
