**God is Real – On tha Rise (lyrics)**

Hook

Rise up. God is real. Rise. God is real

Verse 1

Architectural affirmations usually in U smarts (God talks in synchronous ways)

Love the people 10% in God We Trust new starts (God's name on the $?...he he goes)

Faith anointing or it's not God or death the love fought (love is love. Amen!)

Remember Father Spirit Son blessing the Earth in 3 parts

Took the Word to the gills from the streets to the hills

Jesus died the curtain split still people payin' bills (story goes, that when Jesus died, the temple was destroyed and a purple curtain split in 2…blue + red = purple)

Rhyme like a brush stroke 50 won bust ghost

X 4 God no agenda other than love and the cest floats

Why? Because we know to recognize the real Word lift

Air Space is God sayin' one love ya' heard this?

A trillion planets he deals with back up off the tomb (2em') trip

Benefit of the doubt a 6 with 3 know the peace witch

Iniquitous decrees stop the drama please (shouting inadequates at others, $ over heads)

New level new devil we take it to it's knees

Grass withers drama leaves the Word is inner cheese

Isaiah 40:8 feel better won't you please (Word of God lasts 4ever)

Verse 2

Helping us heal continue to deal Jazz n' peace is Jazmin zeal

Married to the music brings us peace and that's tha real

Dr. Byan ☺ just respect we live, that's the deal

Ain't no joke we know the hope is in the air so eat your meal

 Not much for the glib n' rift so let it go

Keepin' on Yo Happy Song be encouraged flow

We know we know so positive emotional n' Bro

5 at another level keep it low they movin' slow

On the rise is far from an exit

Inner prize nickels dimes made your next hit

Oblivious disrespect claimin' 2 and lessons

Reasons the way it is but keep blessin'

It's a big world myopic open up and understand

So many cultures faiths one world how he planned

To unify what did they think he made creation for devils hand?

He loves the children teachin' buildin' eclipse the beast call it canned
